AOS PROUDLY OFFERS SATCOM DIRECT GLOBAL ONE NUMBER™ AERONAUTICAL SATCOMS TECHNOLOGY

Dallas, Texas, August 15, 2003 – AOS has teamed with Satcom Direct, LLC of Satellite Beach, Florida to offer Inmarsat Aeronautical Services, including patented Global One Number™ calling services, to its Government and commercial customers.

Satcom Direct's patented, interactive design consolidates a satellite phone communication systems and the complexity of the ground telephone network infrastructures into a single, 10-digit number. This One Number™ makes calling simple, reliable and global. By simply dialing the terminal's global, 10-digit number, a user's call is connected within seconds – regardless of where the terminal may be at the time, offering the freedom to contact an aircraft anywhere in the world. Satcom Direct also provides calling cards that are customized to a specific satellite terminal.

About Satcom Direct

Satcom Direct provides organizations around the globe with easy and reliable satellite communications services via Inmarsat and Iridium. Satcom Direct's distinctive methodologies, processes, and professional resources focus on improving performance, increasing profitability, and reducing operational costs of your satellite communications service and equipment.

Founded in 1988, **AOS, Inc.** is a multi-vendor, turnkey systems provider offering a broad range of communications and security products, specializing in rapid deployment and emergency response solutions for a worldwide customer base. The company designs, develops, integrates, assembles and tests its own products under the most rigid international standards.
