AMERICOM GOVERNMENT SERVICES ACQUIRES AOS, INC.

(DALLAS, TX – July 29, 2008) – AOS, Inc., engineers of secure telecommunications technologies and global network mobility today announced it has signed an agreement detailing its acquisition by satellite solutions provider Americom Government Services (AGS) of McLean, Va., from Falcon Communications, Inc., a company owned by management and CM Equity Partners. Upon completing this transaction, AOS, Inc. will integrate as a division of AGS.

AOS was founded in 1988 in Dallas, Texas, and in 2005, CM Equity Partners participated with management in recapitalizing AOS. Today AOS is a leading provider of highly secure, customized, turnkey network mobility and communications solutions, and engineering, program management, IT consulting and managed network services. As one of the most respected and recognized leaders in its industry, AOS has a reputation for exceeding customer expectations in solving mission-critical problems with innovative applications of technology and expertise.

Tip Osterthaler, President and Chief Executive Officer of AGS commented, "The benefits of the acquisition of AOS, Inc. will be reflected in the added value we are creating for our U.S. Government customers. Operational security is an important aspect of how our customers operate – the integration of AOS technology with our satellite solutions will enable enhanced communications for the U.S. Government worldwide."

As part of the SES fleet, AGS leverages 38 global satellites in creating custom satellite communications solutions to meet the mission requirements of the U.S. Department of Defense, NASA, FAA and other U.S. government organizations around the world.

Sue Robinson, Chief Executive Officer of AOS, Inc. noted, "The addition of AOS' highly secure, turnkey network and communications solutions will further strengthen AGS' leadership in meeting the U.S. Government's growing demand for commercial satcom and network mobility solutions."

AOS Inc. will continue most operations from its Dallas, Texas headquarters with the incorporation of a few staff members in the AGS offices in McLean, Virginia.

About AMERICOM GOVERNMENT SERVICES

AMERICOM Government Services, Inc. (AGS), an independent corporation and wholly-owned subsidiary of SES AMERICOM, Inc., is exclusively focused on meeting the satellite communication needs of the U.S. Government. Leveraging more than three decades of experience in the government SATCOM market, AGS offers robust and secure satellite-based communications solutions. By integrating hybrid telecommunications and information

technology systems, including leading-edge IP platforms and applications, AGS provides secure broadband communications in support of mission-critical needs as well as day-to-day operations. As part of SES's fleet of 38 satellites offering comprehensive global coverage and bandwidth portability, AGS's solutions including highly reliable fixed, transportable and on-the-move services can be provided on a global basis. AGS's reputation as a provider of high-value end-to-end solutions has been validated by long-term relationships with diverse customers, including DoD, Department of Commerce/NOAA, Department of Justice, Department of the Interior, Department of Transportation, NASA, and other civilian and defense-related agencies.
